

Dear Sir or Madam,

We cordially invite you to VEMs 18th Technical Conference, which traditionally takes place in Wernigerode and deals with the latest developments in drives.

Main topics of the two day event will be, amongst others:

- product innovations for low- and high-voltage applications, as well as for drive systems
- digitisation of the branch
- recent technological advances in electrical engineering
- latest European legislation on energy efficiency and their effects

Please click on the button [To the registration](#) to get more information on the VEM event site. Our organization team will be pleased to answer your questions personally.

We are looking forward to share opinions and experiences with you in September 2021.

Your VEM Group

Date

14th & 15th September 2021

Venue

Harzer Kultur- und Kongresshotel (HKK)
Pfarrstraße 41, 38855 Wernigerode
