

Dear Ladies and Gentlemen,

We cordially invite you to our 21st Technical Conference, with the topic
„Electric drive systems – innovation for more sustainability“.

Among other things, the focus of the two-day-event will be:

- new product developments in low and high voltage as well as drive systems
- new solutions with electrical drives for new areas of application

For more information, please check out our registration page.

We look forward to a captivating, professional dialogue and an exciting time with you.
